Sandiford, Peter

108

January 31st, 1917

Professor P. Sandiford,

Faculty of Education.

Dear Professor Sandiford:

I am much interested in the letter which I return you. Many thanks for giving me the opportunity of reading it. It is gratifying to us and it is particularly interesting in throwing light upon movements in England.

If you use any for an article for "The School" I hope you will cut out altogether that about the Australians. It would never do for anything like that to be in a Canadian publication. Our relations with Australia in any case are always somewhat delicate.

Yours sincerely,

President.
